Education Empowers

Dr. Manju Reji
Principal
India International School, Sharjah

Dear Students,

Even though we cannot begin this year with a traditional model, we are committed to offering a total distance learning program with live, virtual teaching and students in challenging curriculum and collaborative work during the last seven months. Our teachers are happy to meet with you and partner with you for successful hybrid learning.

I want to congratulate and thank everyone involved in the transition – students, staff, and parents, of course. We would much prefer to have all students physically in school. However, we recognise that this move is for everyone's good as this virus persists, and while the national vaccine programme takes off. Parents and students have been patient, adaptable, resilient, imaginative, understanding and cooperative.

It is the time to "reflect" upon our past actions, which may help us develop ourselves as better human beings with strong moral values of "sharing, caring, respect, honesty & humility". It is the time to address all our concerns and weaknesses to evolve ourselves wiser to face the challenges of the present and future times. However, our learning cannot stop. Education has no boundaries. We learn from our actions, events and experiences.

Our formal learning will soon begin. For the time being, till the school reopens, we will be available to you through "Distance Learning". This challenge has evolved us to learn varied strategies to face the crisis.

Students, your teachers are working hard to reach you through well-prepared materials for learning. But remember, you have to be very "responsible students" and "strive to make the best use of time". Remember, as "All work and no play makes Jack a dull boy", the vice-versa is also true. We want you to come back to school confident and well informed.

Happy Learning & Stay Blessed

SUSTAINABILITY

The year 2023 aims to showcase UAE's commitment towards fostering a global collaboration in seeking innovative solutions to challenges, such as climate change and other pressing issues related to sustainability.

At IIS, we are always striving to create a more sustainable environment. We have implemented a range of initiatives to reduce our environmental impact, while also educating our students and parents on the importance of sustainability.

Hence, we were able to bring together everyone who calls the UAE home to work towards a prosperous future.
